

Technical Information

Power Up for Gasoline (LHP)

Product Description

- Reduces deposits in port fuel injector, combustion chamber, and intake valve retaining a “like new” performance
- Helps improve acceleration
- Improves fuel economy and reduces emissions
- Contains rust and corrosion inhibitors to protect the fuel tank and entire gasoline distribution system from corrosion
- Helps restore engine performance and separates water
- Reduces surging, stumbling, hesitation, stalling, and rough idling to improve drivability

Typical Properties

| Properties | Method | Results |
|-------------------|-----------|----------------------|
| Appearance | | Light yellow, liquid |
| Viscosity @ 40°C | ASTM D455 | 12.5 cSt |
| Density @ 20°C | ASTM D941 | 0.888 g/mL |
| Pour Point | ASTM D97 | -27°C |
| Flash Point (COC) | ASTM D92 | 74°C |

Test Data

| Property | Method | Results |
|--|------------|-------------------------------------|
| Rust Prevention - Neat Gasoline - Gasoline & 4300ppm Power Up for Gasoline | ASTM D665 | 95% Surface Rust 1% Surface Rust |
| PFI Clean Up Test | ASTM D5598 | 95% Injector Flow Returned |
